### **DETAILED ACTION**

1. Claims 1, 2, 145, 17 and 18 are pending in the application.

#### ***Response to Arguments***

2. Applicant's arguments filed On Dec. 15, 2004 have been fully considered but they are not persuasive regarding indefiniteness, obviousness and double patenting rejections. In regard to indefiniteness rejection, the examiner does not agree with the applicants arguments that the same term appears in the grandparent patent and therefore, is definite. The claims in the grandparent patent do not have any bearing on the prosecution of the instant application. In regard to obviousness rejections, the examiner does not agree with the applicants arguments also since the utility is identical. The applicants did not provide any unexpected data of superior activity of the instant trihydrate or crystalline form as compared to known magnesium salt of S-omeprazole of the two cited references. What is the evidence that the trihydrate or crystalline form is maintained in the pharmaceutical composition or following in vivo administration of magnesium salt of S-omeprazole? In regard to double patenting rejection, the examiner does not agree with the applicants arguments that the scope is different. The applicants did not provide any reasons or provided any evidence to show how the scope is different? Are the major peaks in X-ray diffractogram different in the instant magnesium salt of S-omeprazole as compared to the cited patent?

#### ***Conclusion***

3. All rejections under 35 U.S.C. 112, second paragraph, 35 U.S.C. 103(a) and 35 U.S.C. 101 are maintained for the reasons of record.
